- Kepted the stock of the technicals.
 - Managed to learn about mechanics.
 - Kepted clean the construction machines.

ABOUT ME

Graduated with a Bachelor's degree in IT from EPHEC College. I developed an interest in IT during high school, where I learned web development. In college, I acquired various skills such as setting up infrastructure architecture, working with cloud-based solutions, security, application development, electronics, and operating systems.

I am now looking to join a team where I can learn and expand my knowledge in IT.
